ADAM NEELY

## Modern Alchemy

February 17, 2024 - July 29, 2024

Modern Alchemy will explore the creative working processes of innovative, award-winning jeweler Adam Neely. Neely combines traditional goldsmith techniques with modern technology to transform precious metals and gemstones into wearable fine art. Collaborating with world-class lapidaries, such as Stephen Avery, Neely creates truly imaginative pieces that go beyond contemporary design into the realm of dreams and fantasy. This exhibition will explore this innovative jeweler's history and working process and include some of the raw and faceted gems and minerals he uses.
